MAILY. 3 " "
WEEKLY, 1 " No Telegraphic despatches received at the

Sentence office, yesterday, the wires working badly and refusing to give down. A Signal to the Democratic Fleet.

The Washington Union, the flagship of the Administration and the National Democratic Party displays over its leading editorial of Tues-

day last, the following signal to the fleet : day last, the following signal to the Heet:

"PIDELITY TO THE ORGANIZATION
OF THE DEMOCRATIC PARTY, TO THE
"VOICE OF THE MAJORITY, AND TO
THE PRINCIPLES OF THE NEBRASKA
BILL ESSENTIAL TO DEMOCRATIC
GETHODOXY."

This is the fing under which bogus "Democra cy" is now summoned to do battle—the black flag of Slavery-Propagandism. Henceforth "Domocratic Orthodoxy" is to be tried and de-termined by the new Nebraska test. No man is to be counted worthy of office, or fit to train under Pirace, Docolas & Co., who will not abjure the Ordinance of '87 and the Missouri Compromise, and consent to give Slavery a clear field and every favor in all parts of the Republic. "Fidelity" to that creed, proclaims the Washington L'usa, is "essential to Democratic Orthodoxy."

Those in Wisconsin who call themselves "Demcerate" will learn from this official Proclamatio of the Government organ precisely what they are expected to do. No difference of opinion is to be tolerated on this vital issue. They must give in their adhesion to the Nebraska Iniquity, or be drammed out of the "Democratic" camp. Time was when equal rights, the largest liberty, and Freedom of Thought, Speech and Action, constituted the boasted platform of "Democracy." But that time is no longer. The Federal over-Seers, Pierce, Douglas & Co., have wrought a notable change in the doctrines and discipling of the party. All that the rank and file are now expected, or allowed to do, is to support regular nominations, swear by the National Administration, and stick to Nebraska | Let us see how the Freemen of Wisconsin will respond to the Union's Pro-Slavery Signal.

A FAITHFEL CHAMPION. - While all of the Whig and Free Soil and a majority of the Democrati Process of the State are scoring the late Legisla ture and the administration of "Barstow and the balance," for their varieus short-comings and mis-doings, there is here and there a paper to be found, which boldly justifies whatever they did and imputes all the assaults open them to party or personal malice. In their eyes, "whatever is is right," and they can discover nothing wrong mare in the injurious attacks which have been made by fault-finding whig presses upon the po litical innocests at Madison and their allies in the legislature. Thus the Pick and Gad discourses as follows:

In their slander of our Executive they have brought upon themselves the contempt of all persons whose prejudices do not prevent them from the exercise of common sense.

They are equally unfortunate in their attempts no slander the members of the legislature, for every name composing that body was of good repute at home, and had been reserted by the congratulations of their constituents long before the jackais of whiggery commenced their feast.

Most of the presses, in the interest of the State

Most of the presses, in the interest of the State Administration, have conceded that there was some wrong done and a few dishonest, or unworthy, members in the last Legislature. But the Pick and Gad makes no exceptions. It endorses "every man" in that long-to-be remembered

They were all of "good repute at home" and received the "congratulations of their constituents have a deeper interest in it than they have in any other measure now requiring the attents" on their return thither. DESERVED COMPLIMENT .- The Janesville Gazette, in noticing the Rail Road Celebration at Madison last week, improve the opportunity to pay the following well-merited compliment to the Conductors and Agents of the Milwaukee and Mississippi Ruil Road Company :

Hall Koal Company:

"The Milwaukee Fire companies made a very good show, and the conductors upon the cars performed their duties as they always do, to general satisfaction. We have heard the remark which we wish to repeat, that three better conductors cannot be found anywhere, than Messis, Merril Olin and Sare, and let us add that our townsman, Mr. Strasberger, entitled himself to the thanks of the passengers on this occasion, by his efforts to make the excursion agreeable to them."

SENATORIAL DOUGHPACES .- The names of Mr. PETTIT, of Ladiana, and Mr. Jones of lows, are the ones to be added to the list, published yesterday, of the Northern Doughfaces in the Schule who voted for the Nebraska Iniquity. Fourteen Senstors and Forty-four Representatives from Free States, voted for the Repeal of the Missouri Compromise and for placing Liberty and Slavery on au equal footing as to the seitlement and organization of all future Territories of this Republic Let their names be held in enduring remembrance, es Traitors to the North, the Right and Free-

The Cleveland Herald, Columbus State Journel, Checinnati Gazette, and other leading Whig papers, have united in recommending a State Convention, to be held on the 13th of July, (the anniversary of the passage of the Ordinance of 'ST) to determine what action is called for from the Freemen of Ohio, in view of the passage of the Nobrain bill. It is proposed that the convention come from the Propes and men of all parties are invited to attend and take part in the proceedings. The object is a good one and the time fitly chosen. Why should not a similar convention, for similar objects, be held in each one of the Free States, organized under that great charter of Freedom whose birth day would be thus appropriate

Real Estate Speculation at Chicago.

The Chicago peo-ple seem to think that this state of things is to continue until Chicago becomes the second city in the Union, but strangers generally believe that the money in real easter business has been made already. Why then do Capitalists continue to make investments? Because the mania contagious. When a man comes to Chicago he thinks the people are crazy. When he has been gument. Court.—I have had occasion to look at here ten days he becomes crazy himself. A genleman from Alabama, who last week told me he would not touch Chicago property at present prices, this week makes an investment of fifty thousand dollars. Great efforts are made by real estate dealers and by the City papers to keep up these extravagant prices. The end must come, but when no one can tell. One thing is certain an investment in Milwaukee, would be much more promising than any that can be made here, and if your beautiful city had her railroad consection with the east and south, a large amount f capital would seek investment, which now is retained here, or, passes on the railroad lines to the west. It is said that President Pierco favors the object which has drawn Lord Elgin and Messus Hincks and Chandler to Washington, but that insanuch as Congress is now in session, he is not willing in a question affecting so directly our national revenue and which would probably work no small change in our tariff regulations, to call in the aid of the treaty-making power. Now, will our leading minds at Washington abandon, for a season, schemes for President-making, for acquisition of territory, and other high-sounding and exciting objects of legislation, and work for the accomplishment of an object so fraught with interest to a large portion of the confederacy.—In particular would we call unon our own Senator, Judge Douglas, to take the initiative in this matter. I have heard with pain and regret the death of my dear and valued friend, Richard G. Wins-Low, of Cleveland.

I had known him intimately for the past 17 years, and for over thirteen years gone by, he has been one of the most active busines men connectall with our Lake Commerce, baving owned and had an interest in 19 sail vessels, propellers and steamers, and was one of the largest of our produce dealers. J., shows very clearly, what the defects of the common law were, to remedy which, the act of the 11th of George 2d was passed. So far as I have been able to examine the subject. I think it apparent, that the old states did not regard this act of 11th of George 2d as in force in them, respectively, after the revolution. Thus New York re-enacted its important provisions, (I R. L. 444) and it will be found in the present Rev. Stat. of that State (Rev. Stat., Vol. 1, 748, Sec. 26). In Massachusetts, a similar law was passed (14 Mass

It is true that in some of the States, it has seen claimed and perhaps decided that where the common law had been modified or altered by act of Parliament, previous to the revolution, such modification would be recognized by the States. but I believe in no case, unless the act, interms, was made to apply to the Colonies, and as such was in force at the time of the revolution. But it is quite clear that the States did not regard this act of 11th of George 2d as in force, and hence their early legislation upon the subject. I shall sustain the demurrer in this case, and to the end that if I am wrong, the Supreme Court can set me right, or if there be an important emission

THE MINES —The accounts from the mining districts continue, as for the past six weeks, of the most flattering character. suggestions:

If the free soil party generally would take the reasonable, practical view of the matter that is taken by Mr. Sholes of the Telegraph, we believe them would be little difficulty in effecting an efficient and successful mion. He says:

"The old parties have the strength—it is one of them—or the men who lately composed them, who must be looked to mainly to elect the candidate, and from among them, it would seem natural the candidate should come. Nor centible expected that an extreme candidate can be united upon by moderate and middle men, therefore it would seem reasonably and natural that we should be expicuse so further than to be assured that the candidate, in the grand division, is on the right side of the dividing line."

The law requiring that the composition shall be published, of every medicine sold in the State, cannot work to the injury of anybody, who deserves protection. I have published the receipts of my medicines for fifteen years, and believe this to be the honest way of making their virtues known to the community. The Modical Profession publish their discoveries to the world as soon as made, for the berefit of all mankind. Why should we not? The Law which you fear will destroy your business can injure only those who falsely pretend to discoveries and secrete which they have not. It will expose the emptiness of such pretensions, and the public will turn aside from such preperations as are found to be worthless when their composition is known. If medicines have real worth, they will be only the better appreciated and the better patronized by laying their composition open to the Public, that all may judge for themselves. If they have not real merit, it is due in common justice, to the suffering sick, to the public health and to the cause of humanity, that the people should know them te avoid them. petitioned against any special position requires it.

POLICE COURT, MAY 29th.

REFORE CLINTON WALWOUTH, ESQ., POLICE JUSTICS A warrent was issued in the morning for an sessuit with at axe, but settled before the matter

came to trial. DISCHARGED FROM JAIL. Two men name George Kantz and Peter Schmidt were discharged from jail, where they have been confined six muscles, convicted of assault and bettery, one for being anable to pay a fine of five, and the other a fine of ten dollars. This is one of the most unjust laws, that can be imagined. The defendunjust laws, that can be imagined. The defendants were poor laboring men, and were convicted for an assemble and battery, one doubly as guilty as the other in the estimation of the court—and in ours, for we heard the trial, yet both are imprisoned a like term. Where is the Justice in this law? Now head these men been in easy circumstances they could have paid the fines, and hardly have felt it, but being unable to pay they men been fined iffly dollars, and been imprisconed pro rata, as for five dollars, he would have to he in prison five years. This law is hard upon the poor who err, but inflicts no punishment upon a wealthy man. But our Legislature have heard these ideas advanced from the Police Court before, and nothing is done to repeal such a law. In no other state in the Union does such a one sided unjust Statute as this exist.

THE AHOVE NAMED PREPARATION has become a crossively known throughout the length and breadth of the United States and is universally admitted to be the most delightful, healthful, invigorating, and pure preparation of the United States and is universally admitted to be the most delightful, healthful, invigorating, and pure preparation of pure liquors between the distillation and preparations of pure liquors have error of error description, the undersigned devoted himself to the production of an article of pure gin, which should prove a valuable agent in the cure of the numbried diseases which safflet the human race, and for which Molland gin has been prescribed by the needled faculty for years. At length his efforts were crowned with auccess, at his extensive distillery in Soliciana, Holland, from which place the purest gin has long been imported, and he was enabled to give to the world his Schnapps, which, for purify and entire freedom from the peructions fused oil and all other noxious loggedients, and delightful aromatic flavor, has never been equalled, and caunot be excelled. In ordor to protect himself from peeun vary loss at the hands of cheats, impostors, and picates, who would uniquestionably attempt to pain off a vile and symrious article upon the unsuspecting community, and, like the wolf in sheep's clothing, pray upon their very vitals, he resorted to the expenient of importing and soling his Schnapps only in pint and quart hoties.

These bottles are of glass, stamped with the name of the manufacturer; are corted and sealed, and have printed labels bearing the signature of Udolpho Wole upon them. The New York Medical Gazette and Journal of Health, high authority, has repeatedly prochaimed its excellency. In the July number of that journal, Dr. Resse, ire, secontialned editor, has publicly lorred a discussion upon the subject of the use of absolute mixtures, medicinally, in his widely circuisting echimna, and the views of the incideal faculty in reference to my Schinapps in particular, gring an assurance that they should be spread before the public. Physicians, therefore, who have not already compiled with my request to forward not their opinion as to te qualities, will oblige me by doing so through the editor of the Modical Gazette. icks, will oblige me by doing so through the color of the Modical Gazetta.

to Professor Hullemay.

Dear Sir—In this district your Fills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Billious Complaints I may mention the following ease. A lady-of this town with whom I am personally acquainted, for years was a severe sufferer from disease of the Liver and digestive organs; her medicalatetuchat assured-her that he could do nothing to relieve her sufferings, and it was not likely also could survive many months. This announcement naturally caused great starm among her friends and relations, and they nucled her to make a trial of your Pills, which so improved her, general health that she was induced to continue them nutil she received a perfect cure. This is twolve months ago, and she has not experienced any symptoms of relapse, and otten delarestial your Fills have been the mense of saving her life.
